

Honda and Acura Engine Codes

Recommended Honda Drive Trains				
Engine Code	Year	Donor Vehicle (US)	Donor Vehicle (UK)	Market Origin
B16A2 and B16A3 Hydraulic Clutch				JDM
B16B R Type				JDM
B18C5 R Type				JDM
B16A1 Cable Clutch (Requires Cable Conversion)				JDM
B18C1 GRS (Requires Aftermarket Intake)				JDM
Manual Transmissions Only				
All engine codes are on front of engine, left of exhaust manifold, below head, at bell housing and block mate-up.				
If you're thinking about an engine swap, you may be overwhelmed by the variety of engines available. Use this Engine Codes chart to help find out what vehicles have the engine you want. In order to avoid confusion, the vehicles are listed by their US model year. Keep in mind though, that the JDM model years are usually a year earlier (a USDM '94 Integra is actually a '93 JDM Integra).				
Required Engine Parts				
VTEC DOHC Engine (B18C5)				
Manual 5 Speed Gearbox				
Distributor				
Starter				
Alternator				
Injection System				
Air Intake ancillaries, including Air Flow meter				
ECU				
Engine wiring harness and sensors				
Radiator – including; cooling fans, mounts and hoses. (all parts to reliably run engine)				
Gear Linkage – including shift lever and mounts.				
Exhaust Manifold				
Front exhaust section				
Instrumentation – Driver information clocks				
Cockpit wiring harness for above				
Drive Shafts				
PFI Main Relay				
(ancillary parts to assist installation into new vehicle)				
Also Required				
Metro Steering Arm (1" Longer)				
Fuel Pump - 60 - 90 psi (course filter pre pump & fine filter post pump)				
E200 Pump suggested
